

## INTRODUCTION

This Technical Service Manual has been compiled to provide the most recent service information on the 200 Undercounter Series. This information will enable the service technician to troubleshoot and diagnose malfunctions, perform necessary repairs, and return a unit to proper operational condition.

The service technician should read the complete instructions contained in this training/service manual before initiating any repairs.

**IMPORTANT NOTE:** *The information in this manual is intended for servicing 200 series undercounter appliances starting with Serial #1211440. However, since the general design and operation of these appliances has not changed dramatically in over thirty years, most of the information in this manual is relevant regardless of the age of the appliance.*
